INDEX TO MACHINERY

VOLUME 110

A

PAGE

AEG-Elotherm G.m.b.H.:
20-kW induction heating equipment for heat-treating welded joints in pipelines . . 999
A.E.G. (Gt.Britain), Ltd. 1084
A.E.G. Numeric 311 continuous-path control equipment on Schehr lathe 1084
AEI-Birlec, Ltd.:
Electro-slag refining equipment installed at Hall & Pickles works 483
A.E.I. (see Associated Electrical Industries, Ltd.)
AGIE Co.:
Newall-AGIE type 1520-75K jig erosion machine 663,834
A.I. Welders, Ltd.:
Roller Shear system for strip and plate processing lines 865
AMAC, Ltd.:
Producing and controlling a critical die casting 709
A.P.T. Electronic Industries, Ltd. 151
A.R.O. Machinery Co., Ltd.:
Type 527 air-operated portable spot welding gun 870
ASCO alphatizing process 970
A.T.A. (Grinding Processes), Ltd. 201,403
Abrasion-resistant material. "Plastic Carbide" 1244
Abrasive belts. Behr-Manning diamond . . . 40,1188
Abrasive Developments, Ltd.:
The MicroBlast process 21
Abrasive discs. Pferd Plus reinforced 403
Abrasive machining. High-precision 466
Abrasive machining. Precision casting for . . 1015
Abrasive-wheel cutting-off machine, Curley. . 474
Abrasive-wheel cutting-off machine. MMT . . 1262
Abwood Machine Tools, Ltd.:
Abwood-Contelyt electrolytic surface grinders 832
Type ASG-1 Mk. 11 vertical-spindle surface grinder 144
Accounting machines. High-abrasive machining of components for 466
Accuratool automatic capstan lathe set up for producing blanks 1383
Accuratool 1-in. automatic capstan lathe . . 693
Accuspede motor speed control system. Borg-Warner 1097
Acid resisting steel. EWC 1434
Acramatic IV numerical control system. . . . 1036
Actuator. Limitorque Zero Four electric valve 70
Acurad die casting. Data for 708
Adcock & Shipley, Ltd.:
Bolts, clamps and T-nuts for British-built Bridgeport milling machines 45
Centralized lubrication for A & S milling machines 686
Optical measuring equipment for Bridgeport machines 797
Type 1E-AH auto-cycle horizontal milling machine 573
Adcock & Shipley (Sales), Ltd. 255,797
Adept dry film lubricant. Duckhams 1151
Adformax E.P. tapping compound 260
Advisory service for industrial training 1261
Aeroplane & Motor Aluminium Castings, Ltd.:
Producing and controlling a critical die casting 709
Aerospace components. Large capacity electrochemical machine for operations on 1417
Agemaspark, Ltd.:
Type F 400 spark erosion machine 883
Ahcol Rotamill indexing fixture. Demonstration of. 1385
Air Automation, Ltd.:
New control valves 1372
Type D600 vice and air/hydraulic intensifier unit 1050
Air-bearing developments 1200
Air compressor production at the works of Clayton Dewandre. Developments in . . 172
Air cylinders. Baldwin position-controlled . . 72
Air cylinders. Schrader aluminium 263
Air heater. Cromack 327
Air and hydraulic cylinders with built-in limit switches. Tomkins-Johnson. 36
Air line pressure. Equipment for boosting . . 742
Air-operated toggle press. Red Ring 1163
Air-operated tube bending machine. Carwar 1376

PAGE

Air pallet. Clark 1274
Aireworth 200-ton hot and cold bar shearing machine 846
Airflow and Coolair buffs and mops 602
Airmec, Ltd.:
Autoset n.c. system applied to existing machines 528
Autoset 410 n.c. systems on Gate-Omega No.2 jig borer 267,885
Numerically Controlled Machine Tool Centre 951
Akron Standard Mold Co.:
Eliminating breakage of small drills . . . 136
Alapayevsky type 1425 chucking automatic 312
Aldridge Tool & Engineering Co., Ltd.:
Smart & Brown-Aldridge contour cutter grinder set up for sharpening a form milling cutter 325
Alexander, George H., Machinery Ltd.:
1 : 1 hand duplicator 694
See also 533,944
Alexander, George H. Machinery (Manchester), Ltd.:
Exhibits at Yorkshire E.I.A. Exhibition 822
Triple Twelve bandsaw 823
See also 944
Alexandra Engineering (Southend), Ltd.:
Badalex vacuum flask installation . . . 1306
Alfa-Laval Co., Ltd.:
Clean-oil installation at BMC 89
Alignment test bars. Design of 1061,1278
All-Union Centre of Industrial Design. Russian 907
Allen, W.H., Sons & Co., Ltd.:
Set-ups on Schiess gear shaper for cutting teeth in the coupling ring of Allen-Stoeckicht epicyclic gear 946
Allis-Chalmers Manufacturing Engineering Dept.:
Productivity and profits increased with n.c. chucking automatics 85
Alphatizing and bright chromizing 970
Aluminium Laboratories, Ltd.:
Installation of Monometer lip-axis tilting reverberatory furnace 518
Aluminium melting in bulk 517
Amendola Engineering, Ltd.:
Machine for cropping forgings from bar 476
American Machine & Foundry Co.:
Licence agreement for manufacture of the Versatran in the U.K. 216
Versatran continuous-path industrial robots. 179
Amplifier, turbulence, for fluid logic control equipment. New Maxam 40
Anchors. Phillips expanding stud 1408
Anderton Springs, Ltd.:
Exhibits at London International Engng. and Marine Exhibition 862
Andrews, W.R., (Engineers), Ltd.:
Work clamp 142
Angle checking to 1 min. of arc. Shop floor 989
Angle planing equipment for Boehringer planing machines 1252
Anglometric micrometers. New Shardlow 147
Annunciators and monitors. Panalarm Series 70 650
Anocut equipment for high-volume production 326
Anodizing and selective treatment of metal surfaces. Selectrons equipment for 408
Applied Electronics & Automation, Ltd.:
Mains distribution unit. 127
Apprentice training centre at the works of Ashdown Bros. 608
"Approaching Automation" advisory centre 658
"Approaching Automation" exhibition at Birmingham University 1162
Aquicut Super 10 cutting oil 247
Arbor press with percussion ram 818
Arborless wheels. Grinding at very high speeds with 65
Archdale, James, & Co., Ltd.:
Drilling machines incorporated in automatic girder drilling installation 265
Economics of automatic assembly 153
Economics of mechanical assembly 152

PAGE

Archibald, F.R.:
Design of alignment test bars. 1061,1278
Arcuate surface, Determining the radius of an, with the aid of a measuring microscope 520
Armco-Pittsburg S.A.:
Copper-coated steel strip 295
Armshire Reinforced Plastics, Ltd.:
Glass-fibre reinforced plastics components produced by cold pressing 737
Armstrong, Stevens & Son, Ltd.:
Examples of high energy rate forging on a Dynapak machine 1147
Aro Company:
Fluid logic control equipment on Czech eccentric press 1377
Pneumatic logic system. 821
Asco miniature solenoid valve. Dewrance . . 34
Ashdown Bros. & Co. (Engineers), Ltd.:
Apprentice training centre 608
Ashworth, Thos., & Co., Ltd.:
Pneumatic guard control for die casting machine 1366
Assemblies. Trend logic card 151
Assembling printed circuit boards 878
Assembly aid machines. Transarm twin linked 73
Assembly, automated, The significance of . . 115
Assembly benches. Randalrak work 1332
Assembly of British-built Milwaukee-Matics. Clean room for 1309
Assembly of Churchill CA9-10 and BA60 automatics 1254
Assembly line. The new Ford door 508
Assembly machine for cylinder heads. Russian automatic 456
Assembly machine for piston/connecting rod units. Russian automatic 456
Assembly machine for sewing machine needle clamp units. Russian automatic 1127
Assembly. Progress in automated 152
Assembly. Prospects for automatic 99
Assembly shop at the Ordjonikidze Machine Tool Works. New 904
Assembly technique for BSA motor cycles. Advanced. 1038
Assembly technique for printed-circuit board units. A modular 1136
Assembly unit. R.E.M. screw feed and 1108
Assembly. Work handling equipment for I.C. engine 794
Associated Electrical Industries, Ltd.:
Control system for modern flying shears 743
Astral Engineers, Ltd.:
Some current development in electro-forming 732
Atkin combined coil cradles and strip straighteners 299
Atlas Copco (Gt. Britain), Ltd.:
Impact tool for loosening and tightening nuts 1405
Atomic Energy Research Establishment:
Workshop Analysis and Scheduling Programme 128
Ceramics Divn.:
Ultrasonic machining equipment 749
Audio-visual system for instruction of production line workers 1194
Aurelio Merli:
Clover centre lathes. 1049
Australian Defence Scientific Service:
Measurement of line straightness. 591
Australian Zinc Alloy Die Casters Association Annual Convention 1425
Auto-cycle milling. High-speed 573
Auto-Robot control for Herbert No. 0 capstan 750
Autobot Co.:
AMF Versatran Divn.:
Industrial robots. 179
Automated assembly. Progress in 152
Automated assembly. The significance of . . 115
Automated hot forging installation 253
Automatic assembly. Economics of 152
Automatic assembly machine for cylinder heads. Russian 456
Automatic assembly machine for piston/connecting rod units. Russian. 456
Automatic assembly machine for sewing machine needle clamp units. Russian . . . 1127

PAGE

Automatic assembly. Prospects for 99
Automatic balancing, c..recting and grading machine for small rotors. Schenck fully- 1157
Automatic bearing broach. Russian MP-188 82
Automatic capstan conversion system. GKN 1165
Automatic capstan lathe. Accuratool 1-in. 693
Automatic capstan lathe, Accuratool, set up for producing blanks 1383
Automatic. Churchill CA9-10 chucking 1204
Automatic. Churchill Mark 2 chucking 969
Automatic circular sawing machine. Keuro 698
Automatic. Conomatic 6-spindle chucking, Auto-handling on a 362
Automatic copy turning. Weisser Hektor lathe equipped for 1263
Automatic crankshaft grinder. Newall type AHAC 1051
Automatic-cycle copying lathe. Mondiale Gallicop 942
Automatic, Czechoslovak-built type A 50 single-spindle, set up for producing a component from Duralumin bar 1332
Automatic die casting production. Ejector mechanisms for fully- 703
Automatic duplex slitting machine demonstration. Krupp 1440
Automatic equipment for feeding shafts to a centreless grinder 1023
Automatic Equipment, Ltd.:
Dip painting machine 144
Goliath stoving oven 210
Paint-spraying machine 239
Automatic flash removal from plastics parts 76
Automatic girder drilling installation 265
Automatic handling on a Conomatic 6-spindle chucking automatic 362
Automatic. Herbert-BSA type 5CM single-spindle chucking 1102
Automatic high-speed inspection of variable-pitch cams for zoom lenses 1360
Automatic hobbing installation for starter rings. Liebherr 238
Automatic horizontal bandsawing machine. Czech type PP 300A 642
Automatic inspection of blanks 748
Automatic inspection of pistons. Micromatic equipment for 404
Automatic inspection of seam-welded tubing 375
Automatic loading and storage equipment for wrist watch cases 1238
Automatic "machine minder". Photain 35
Automatic multiple flame cutting machine. Statosec SK 1382
Automatic paint spraying machine for small parts 406
Automatic pointing of small drills. Machine for 1365
Automatic positioning table. Workmaster turret head machine with 410
Automatic projection equipment. Line diagrams produced by 1152
Automatic. Russian-built chucking 312
Automatic. Russian type 1265 PM-6 six-spindle chucking 418
Automatic saw sharpening machine. Vollmer type CnK 697
Automatic screw head slotting machine. Menn type K85 951
Automatic screw machine. Brown & Sharpe introduce the Mini-16 1380
Automatic shaft hardening machine. Delapena twin horizontal 535
Automatic special-purpose drilling machine. Trojan 1281
Automatic tap relief grinding machine. Russian MB 13 BI 417
Automatic Timing & Controls, Inc.:
Series 6004 load cell 540
Automatic tool changer. Russian 231
Automatic tube drilling machine with simple programming system 412
Automatic. Warner Swasey Asquith, Multi-spindle drilling heads used on 1104
Automatic welding machine for production of scaffolding props 1035
Automatic. Wickman "10-spindle" 1143
Automatic work handling equipment. Newall unit-type grinder with 1419
Automatic work handling units. Versatile 283
Automatics. Are you making effective use of your? 546
Automatics. Assembly of Churchill CA9-10 and BA60 1254
Automatics. Krasny Proletarii multi-spindle vertical 453
Automatics. n.c. chucking, Productivity and profits increased with 85
Automatics. Production of Russian chucking 684

PAGE

"Automation, Approaching". advisory centre 658
"Automation, Approaching", exhibition at Birmingham University 1162
Automation Engineering Systems, Ltd.:
Control systems for Parkson Miller-Matic milling machine 250
Automation, Ltd. 996,1103
Automation for the smaller firm 451
Automation units. Modernizing existing equipment with stock 24
Autoset n.c. system, Application of Airmec, to existing machines 528
Autoset N 410 n.c. system on Gate-Omega No. 1 jig borer. Airmec 267,885
Autoweld arc stud welding machine. KSM 929
Auxiliary Rolling Machinery, Ltd.:
Sheet slitting line incorporating Crompton Parkinson drive 143
Avdel, Ltd.:
Tool for placing Nutserts in the assembly of electronics products fitted with specially-designed screwdriver 381
Avery, W. & T., Ltd.:
Calibration machine for Delft Laboratory 240
Exhibition at London International Engng. and Marine Exhibition 858
1967 Materials Testing Conference 1409
See also 1157
Aviation Electric, Ltd.:
Fluid logic units 211
Avica Equipment, Ltd.:
Machine for orbital arc-welding of titanium bellows assemblies 929
Aviv, I.:
The design of a pure fluid shaft encoder 803
Avnet, Inc.:
"Rapid Die" steel rule press tools 521
Aylesbury Automation, Ltd.:
Automatic assembly 100
Multiple feeder for pin-type components 649
Orientating unit 1269

B

B. & B. Numeric Machining Co., Ltd.:
A sub-contract n.c. machining service 820
B.D.H. Laboratory. Chemicals Divn.:
Panacide bactericide for use in oil emulsions 887
BEMAC report on the USA market 1167
BETEMA compacting presses for metal powder 588
BISRA 50-ton load cell 1201
BISRA semi-automatic fine wire welding machine 1305
B. & K. Instruments, Ltd. 765
B.P.S. Machinery & Spares Co., Ltd. 149
B. & R. Relays, Ltd.:
Type KU12/5 starter 373
B.R.G., Ltd.:
Exhibits at London International Engineering and Marine Exhibition 915
B.R.G. French-built type 3000 A guillotine shearing machine 915
BSA Foundries, Ltd.:
Advantages of shell-mould casting with zircon sand 1302
BSA Motor Cycles, Ltd.:
Advanced assembly techniques for motor cycles 1038
BSA Precision Castings, Ltd.:
Rubber dies for wax patterns for small-quantity investment casting 635
BSA Sintered Components, Ltd.:
Sintered part replaces 4-piece assembly 759
B.V.C. Engineering, Ltd.:
Portable industrial vacuum cleaner 520
Bactericide for use in oil emulsions. Panacide 887
Bader Machinery Co., Ltd.:
Badalex vacuum flask installation 1306
Baier facing and centring machine 699
Bainbridge, Ward W.:
Selective plating of cavities in plastics moulding dies 529
Balancing, correcting and grading machine for small rotors. Schenck fully-automatic 1157
Balancing equipment. Balantron electronic grinding wheel 1266
Balancing machine. Large C.E.M.B. dynamic 530

PAGE

Balancing machines. Reutlinger vertical 1300
Balantron electronic grinding wheel balancing equipment 1266
Balding Engineering, Ltd.:
Beaver Mark II milling machine 920
Milling machine fitted with Gettys electronic 3- dimensional copying equipment 1375
Baldwin Fluid Power, Ltd.:
Position-controlled air cylinders 72
Valve with rotary directional control switch 34
Bandsawing machine. Czech type PP 300A automatic horizontal 642
Bandsawing machine. Havart billet cutting-off and die splitting 806
Bandsawing machine. Regina small-capacity 300
Bandsawing machine. Alexander Triple Twelve 823
Bar automatic. Wickman "10-spindle" 1143
Bar feed unit for capstan lathes. Gearaide 436
Barker Machine Tools & Equipment, Ltd.:
Exhibits at London International Engineering and Marine Exhibition 922
See also 146,266,298,944
Barnes, Douglas, Ltd.:
RSC 56-ton hydraulic press brake 845
Barrel or rack plating. Canning plant for 805
Barton, H.K.:
Ejector mechanisms for fully-automatic die casting production 703
Base tangent method of measuring gear teeth 462
Batch production on Gnutti Rotacycle machines 1190
Baty, J.E., & Co., Ltd.:
Inch and metric reading dial indicators 1185
New dial snap gauges 826
Bausch & Lomb:
Experimental "light wire" kit 539
Bearing arrangements for machine tool spindles 368
Bearing broach. Russian MP-188 automatic 82
Bearing grinding machine. Russian CA-15 2-spindle 413
Bearing. INA low-speed heavy-duty roller 549
Bearing metal. Caro-Buhler 646
Bearing ring grinder. Russian 6060 414
Bearing rings. A simple tool for removing inner 405
Bearing track super-finishing machine. Russian 318
Bearing, Windmill thrust - the oldest rolling bearing in Britain 552
Bearings for indexing and rotary tables. Roballo 303
Bearings, hydrostatic, Transfer machine performance improved with 984
Bearings. Spiro heavy-duty 302
Beaver Mark II milling machine. Balding 920
Beaver turret milling machine with Gettys electronic 3-dimensional copying equipment 1375
Bedways. Russian induction hardening equipment for 565
Beech Manufacturing Co., Inc.:
Bux electromagnetic base portable drills 201
Behr-Manning Divn., Norton International Inc.:
Diamond abrasive belts 40,1188
Belford (Machine Tools), Ltd.:
Exhibition of Ingers machine tools 665
Bell Center & Tool Co. 97
Bellows assemblies. Avica machine for orbital arc-welding of titanium 929
Bellows Valvair, Ltd.:
High-flow spool valves 762
3-way solenoid valve 1352
Belt dressing, Stop Slip 1364
Belt grinding machine. Ellis type 1/60 1102
Belts. Behr-Manning diamond abrasive 40,1188
Belts. Synchroflex polyurethane toothed 263
Belting, Brammer Wedgelink 1209
Bench drilling machine. Fyna 1268
Bending rolls. Kumla PV5 initial-pinch 848
Bending rolls, Large plate, to be built by Bronx Engineering Co. 249
Bending tools. Dore 320
Bendveyor power-driven belt conveyor 1272
Bennett, P.Allen, Ltd. 1305
Benrath Machine Tools, Ltd. 531
Berry, Henry, & Co., Ltd.:
Large die-spotting press 94
Beryllium. Manufacture of 1072
Besco Truecut guillotine shearing machine 852
Bevelling machine for plate-edge preparation. Pullmax type X.91 853
Bidgood, R.E.:
The design of a pure fluid shaft encoder 803

PAGE

Billet cutting-off and die splitting bandsawing machine. Havart 806
Billet drilling machine. Craven transportable 98
Billet piercing technique. New 3-roll 258
Billet sawing machine. Wessex 691
Bimax type TA.50 circular sawing machine with bar feed unit 97
Binary to decimal converter. Marconi pneumatic tape reader and associated . . 1199
Binns & Berry Bros. (Halifax) Ltd.: Tangram machine tool units 349
Birch, Michael H., (Designs), Ltd.: Use of Flexane for lining tumbler barrels 64
Birchington Engineering Co., Ltd.: Production of small precision parts from cold drawn sections 620
Bird, Frank: Producing large radius grooves with a smaller cutter 625
Birkett, Francis W., & Sons, Ltd.: Cutmaster-Stone type N160 cutting-off machine 913
Birmingham Industrial Safety Centre. Presentation of 20-ton power press with safety guard to 809
Birmingham University: Application of a Petro-Forge machine to high-speed shearing operations 274
Bishop, Eaves & Sons, Ltd.: Workmaster turret head machine with automatic positioning table 410
Bjerche, Alf.: Oxan oil floor lacquer 1005
Blank-handling equipment for heavy presses 963
Blanks. Accuratool automatic capstan lathe set up for producing 1383
Blanks. Ferro-Tic, Large isostatic press for the production of 986
Blanking, fine, facilities at the works of Mycroshims. Improved 1095
Blanking press. Cowlishaw Walker 600-ton 1295
Blanking presses. Extended range of Finc-O-Matic fine 522
Blast rooms. Vacu-Blast glass bead 257
Blastforming process for improving properties of highspeed steel 481
Blasting equipment. Roto-Finish Osroblast wet 469
Blasting machine, Grit-, for automatic removal of flash from plastics parts 76
Blasting equipment. MicroBlast miniaturized processing and 21
Blasting, Shot-, plant for machine tool castings 798
Blechbearbeitungsmaschinenwerk, VEB: Plate straightening machine 995
Blind captive nuts. I.F.A.C. 34
Bliss, E.W., (England), Ltd.: 1000-ton coining press for brake shoes . . 95
